REASONS FOR ALLOWANCE

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

On page 1 of the specification, line 6, after the phrase "10, 2002," please insert the following --now United States Patent 6,627,107,--

1. The following is an examiner's statement of reasons for allowance:
2. The applicant's timely filing of a terminal disclaimer has overcome previous obviousness type double patenting rejections. As no other art was found, nor has any other art appeared to the examiner, claimed 7-12 are found to be allowable.
3. The applicant's specific combination of the abrasive and the amino carboxylic acids in combination with the specific pH range and selective etching rate was not found in the prior art of record. Nor would it have been obvious to combine these specific features for the specific purpose of preferentially etching silicon dioxide.
